

CIOS 258 Final Project Assignment

Create a portfolio of at least ten photographs, that you took as part of a photo project this semester, and share it in public using a tool like Picasa Web Albums, Flickr, Blogger, a personal web site, or any other public method that you choose, even printing. If you are sharing using the web post the location to the web log. During class I will want you to share the portfolio with the other students and discuss your intention or purpose for creating your portfolio.

The purpose of this lesson is to do a photo assignment. I want you to select an event or theme, take the photographs, make a selection from the photographs, edit the photographs, and share the photographs. It is important that the whole process be accomplished during the semester; it would not be useful to use a project that you have completed previously.

The end result of the project should be 10 shared photographs that represent the completion of your purpose or intention.

Some examples of projects or opportunities that might be motivating are:

- A Fairbanks Neighborhood
- Fairbanks in the Fall
- Angel Rocks
- A Church or Club Event
- First Snow
- Freezing water
- A rainy day
- The North American
- The Yukon Quest
- The fall bird migrations
- The spring bird migrations
- The wood land walk at Creamer's Field during spring breakup
- Creamers Pond
- Spring breakup
- Around your house
- A family outing
- Spring break events or experiences
- Documenting a location or event
- A favorite natural location
- A school event
